

World Energy Outlook

Date: June 12, 2019

Time: 6:00 PM CEST / 1:00 PM BRT / 11:00 AM CDT

Duration: 1 hour

Language: English

*Trends and Perspectives on
Energy Efficiency in Latin
America*

Come join us for a discussion around the [IEA's World Energy Outlook](#), featuring the role of energy efficiency in Latin America in the context of:

- **The new geography of energy.** How will we fuel demand in Latin America and other emerging economies, which collectively are expected to lead global energy demand growth to 2040?
- **Electricity, the fastest growing “fuel.”** What are the implications of increasing electrification on energy systems, energy efficiency and emissions?
- **Sustainable development goals.** How do we achieve sustainable growth given existing trends and potentials?
